### **Topic Description:**

1. **Welcome Presentation.** Presentation welcoming everyone to the conference. State the goals and review agenda.
2. **NMCI is Here.** Describes the history of the NMCI program and the status. Also discusses why the Marine Corps is transitioning to NMCI and its importance.
3. **Deployment Support Overview.** An extension of the COI Network Architecture. What are the processes, procedures and rules for leaving the network and then re-entering such as when one goes on travel, is deployed, etc.
4. **CAC/PKI Issues.** Discuss the purpose of the CAC card and how it will be utilized for use within the NMCI network after implementation. Also discuss process for obtaining PKI Certification during cutover transition. Need to address users logging in from home and for off-site support contractors.
5. **NMCI Policy and Guidance.** Describes current NMCI policy and provides a USMC perspective on why the Marine Corps is moving to NMCI. Also includes a discussion on Requirements generation and how the funding for seats was determined and allocated by Major Command.
6. **Marine Corps Community of Interest.** Provides an overview of Marine Corps Community of Interest and how the environment is going to change. Also include issues relative to operating on SIPRNET.
7. **Acquisition Oversight (Formerly Seat Ordering).** Describes process for obtaining seats and provide update for number of seats ordered throughout LOGCOM and the Region.
8. **NMCI Legacy Applications.** Overview of the Legacy Application transition/certification process.
9. **NMCI Update.** Brief overview from an EDS perspective on the progress of the transition to include training. Specifically discuss user interaction with EDS during cutover such as the process for data migration, training, etc. Also discuss interaction after cutover.
10. **Lessons Learned.** Describes Lessons Learned from Quantico Cutover and any precautions that may need to take place to reduce problems for LOGCOM.
11. **SLA's/Performance Management.** Brief telling the audience basic information regarding service level agreements and the performance management approach.
12. **Moves, Adds, Changes (MACS).** Describes how the contract accommodates MACS, how they might be managed, and the costs associated with them.
13. **Invoice Processing and Budget Issues.** Provide overview of invoicing under NMCI and any budget issues associated in the movement of funds.
